

# User guide for installation of Wi-Fi printing driver

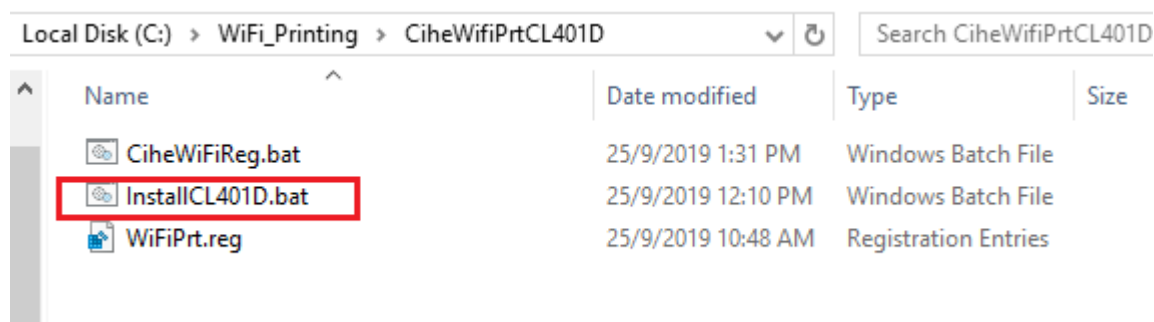

1. Enable the Wi-Fi connection on your personal notebook computer (Windows-based)
  - SSID for student: **CIHE-Student-Secure**
  - SSID for staff: **CIHE-Staff-Secure**
2. Visit our library website at <http://library.cihe.edu.hk/facilities/mfps/wi-fi-printing/> to download the printer driver
  - You only need to download and install the driver **Once** for each Multi-Function Photocopier / Printer (MFP)

MFPs	Location	Wi-Fi print driver Extract the zip file, then run InstallCL401*.bat
CL401A	CBCC Library (Opposite the Service Counter)	<a href="#">CiheWifiPrtCL401A.zip</a>
CL401D	CBCC Library (Opposite the Service Counter)	<a href="#">CiheWifiPrtCL401D.zip</a>
CL401F	CIHE Learning Commons Printing Room (A411-1)	<a href="#">CiheWifiPrtCL401F.zip</a>
CL401G	CIHE Learning Commons Printing Room (A411-1)	<a href="#">CiheWifiPrtCL401G.zip</a>

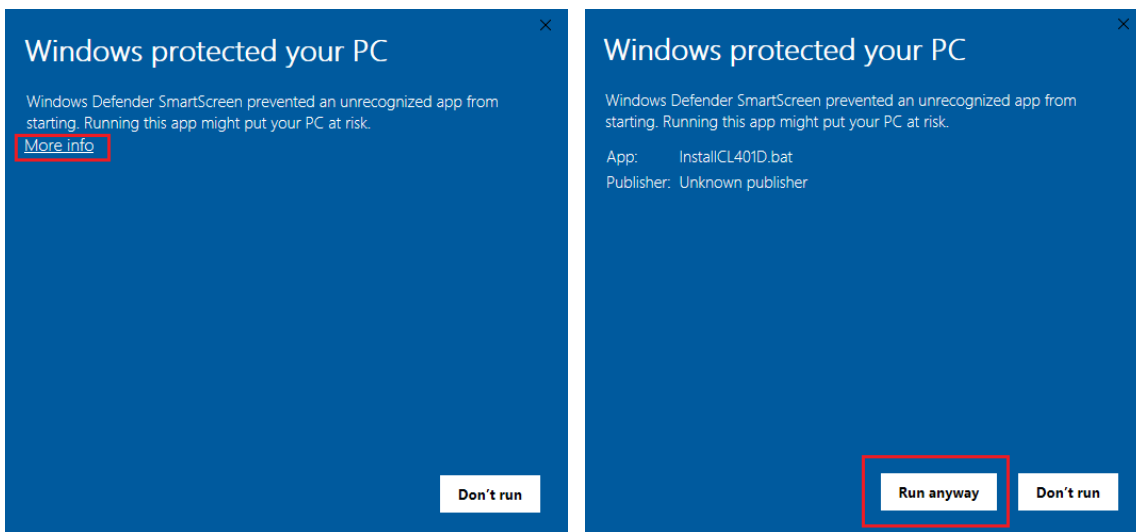

3. You will receive the following file after downloading

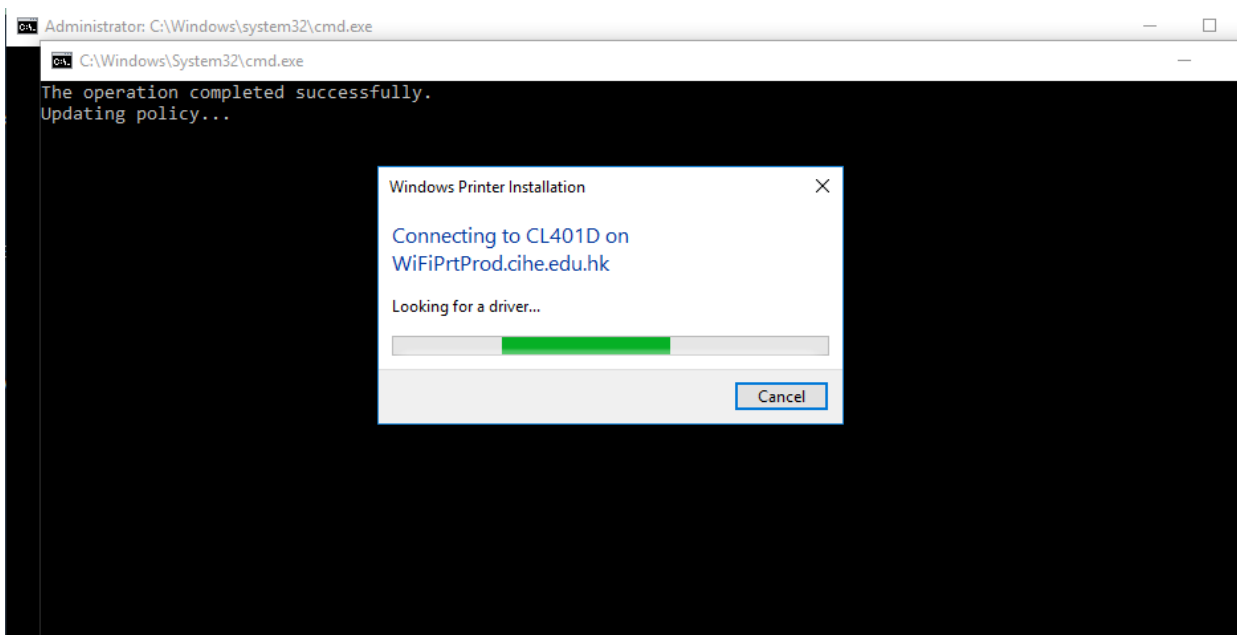

4. Extract the Zip file and you will find 3 files under the folder. Double click the batch file with the name "InstallCL401\*.bat"
  - Local administrative privileges of your personal notebook computer are required for the installation.

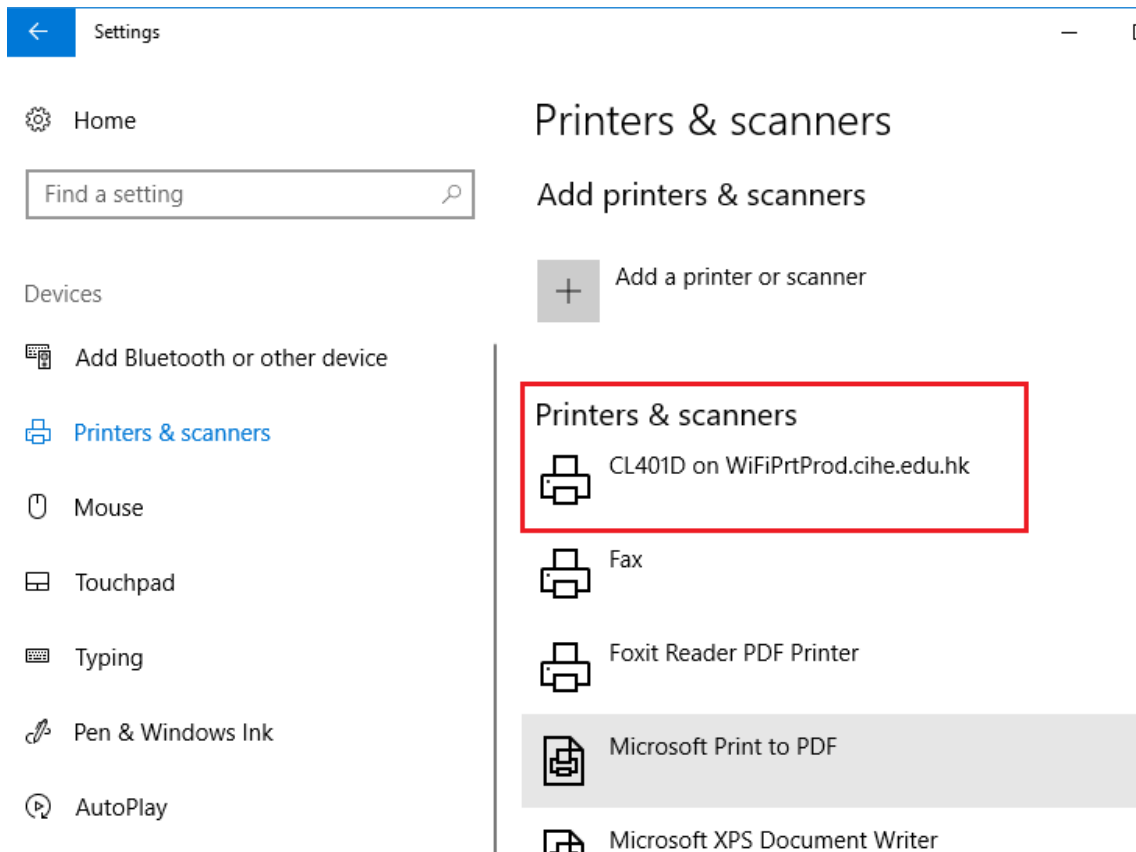

5. The following screen may be prompted. Click “More Info” -> “Run anyway”.

6. The following screen will appear during the installation of the printer driver. The process may take around a minute to complete.

7. The printer icon will appear in the “Printers & scanners” after installation.

8. You will be able to send print jobs to designated MFPs. ([Please refer to the instruction guides for printing.](#))

- The installed printer is only accessible via the Campus wireless network (SSID: CIHE-Student-Secure, CIHE-Staff-Secure).
